Student Admission Enquiry Form

Building Reports, Dashboards, and Custom Pages (UI Builder)

Experiment No: 5
Name: Hoshni Sivaprakash
Roll No: 241401029
Department: CSBS

1. AIM & OBJECTIVE

To design and build a functional **Student Admission Enquiry Form** application in Zoho Creator demonstrating the correct usage of all thirteen Basic Fields in the Form Builder, while solving a real institutional requirement of capturing structured student admission enquiries. The project includes constructing supporting Reports and a UI Builder Dashboard Page to enable admissions officers to view, filter, track enquiries, and monitor admission trends.

2. PROBLEM STATEMENT & SCOPE

The Admissions Office receives enquiries through phone calls, walk-ins, and emails, resulting in inconsistent records. This low-code application captures personal identity, contact details, academic interest, counselling availability, and consent in a structured, validated manner using Zoho Creator's Basic Fields.

3. BASIC FIELDS USED & MAPPING

Basic Field	Form Field Name	Purpose	Sample Value
Name	Student_Name	Full name using First/Last sub-fields	Divya Ramesh
Email	Email_Address	Validated email address for updates	divya.ramesh@example.com
Address	Residential Address	Postal address with city, state, pincode	12, Anna Nagar, Chennai, 600040
Phone	Contact_Number	Mobile number for call back	+91 98765 43210
Single Line	Guardian_Name	Parent/Guardian short text name	R. Ramesh
Multi Line	Additional_Remarks	Free-text remarks or reason for course	Interested in AI & Data Science
Number	Class_XII_Percentage	Numeric value with marks validation	92
Date	Date_Of_Bir th	Applicant's date of birth via date picker	14-Mar-2008
Time	Preferred_Counselling_Time	Preferred time slot for counselling	11:00 AM
Drop Down	Preferred_Course	Single-select list of UG/PG programs	B.Tech - AI & Data Science
Radio	Gender	Mandatory single selection (Male/Female)	Female
Multi Select	Areas_Of_Interest	Multiple technical/club interest selections	Robotics, Coding Club
Checkbox	Terms_Agreement	Consent to institution terms & privacy policy	Checked (Agreed)

4. FORM LAYOUT STRUCTURE (SECTION-WISE)

Section A: Personal Details

- **Name:** First Name, Last Name
- **Date of Birth:** Date field
- **Gender:** Radio (Male / Female / Other)

Section B: Contact Details

- **Email Address:** Email field
- **Contact Number:** Phone field
- **Residential Address:** Address field

Section C: Guardian & Academic

- **Guardian Name:** Single Line
- **Class XII Percentage:** Number field
- **Preferred Course:** Drop Down **Areas of**
- **Interest:** Multi Select

Section D: Scheduling & Consent

- **Preferred Counselling Time:** Time field
- **Additional Remarks:** Multi Line
- **Terms Agreement:** Checkbox (Mandatory)

5. VALIDATION RULES CONFIGURED

- **Mandatory Fields:** Name, Email, Phone, Date of Birth, Gender, Preferred Course, and Terms Agreement are strictly required.
- **Email Field:** Built-in format validation enabled for syntactically valid email formats.
- **Phone Field:** Country code format set for Indian mobile numbers (`+91`).
- **Class XII Percentage:** Restrict numeric value range strictly from 0 to 100.
- **Date of Birth Field:** Validation rule applied to disallow selecting future dates.
- **Terms Agreement Checkbox:** Submission blocked unless explicitly checked by applicant.

6. APPLICATION WORKFLOW SUMMARY

1. **Step 1:** Prospective applicant opens the public form link shared by the Admission Cell.
2. **Step 2:** Applicant fills personal, contact, academic, and scheduling details across four sections.
3. **Step 3:** On clicking *Submit*, Zoho Creator executes built-in and custom field-level validations.
4. **Step 4:** A new record is created in Admission_Enquiry_Report.
5. **Step 5:** Automated confirmation email is triggered to the applicant's email address.
6. **Step 6:** Admission Cell reviews report, filters by course, and schedules counselling calls.

7. EXPECTED LEARNING OUTCOMES

- Understand the purpose and correct usage of all 13 Basic Field types in Zoho Creator.
- Learn how to structure multi-field forms into clean, user-friendly section layouts.
- Practice configuring mandatory, range, date, and format validations.
- Understand how form fields feed directly into reports, workflows, and UI dashboards.

8. DETAILED IMPLEMENTATION PROCEDURE

8.1 Building the Form

A new application **"Student Admission Enquiry Form"** was created in Zoho Creator. The form was built incorporating all 13 basic fields: Single Line, Multi Line, Email, Phone Number, Number, Decimal, Currency, Date, Date-Time, Checkbox, Dropdown, Radio, and URL/Link to capture complete student profiles.

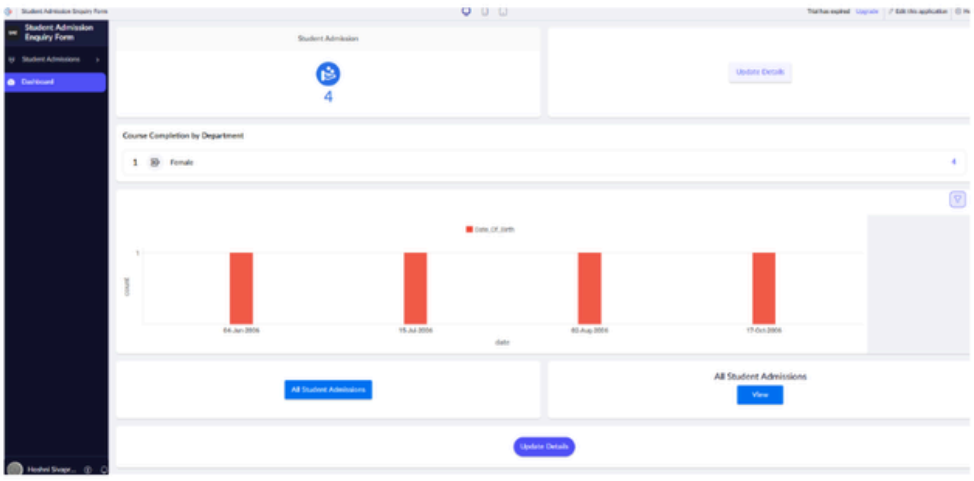

8.2 Building the Reports

1. **All Student Admissions:** Auto-generated grid report from the form, displaying Student Name, Email, Address, Phone, Guardian Name, Remarks, and Class XII Percentage.
2. **Course Report:** Grouped by the Course field to organize enquiries into columns: *B.Tech - AI & Data Science*, *B.Tech Computer Science & Engineering*, *M.Tech AI & Data Analytics*, and *MCA - Data Science & Software Development*.
3. **Student Admission Summary:** A consolidated view summarizing essential applicant details in a single scrollable table for rapid screening.

8.3 Dashboard Page Development (UI Builder)

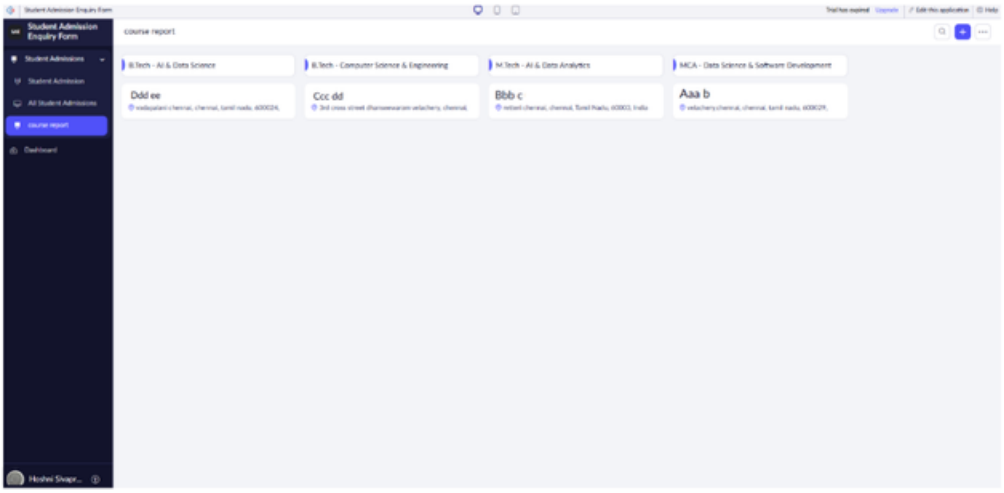

1. Navigated to **Pages** under UI Builder → Created new Blank Page named dashboard.
2. Added a summary tile titled **"Student Admission"** displaying total enquiry count with an *"Update Details"* action button.
3. Added a **"Course Completion by Department"** metric component listing Gender counts (Female/Male).
4. Added a **Chart Component** plotting Date_Of_Birth distribution as a bar chart.
5. Embedded direct action buttons linking directly to **"All Student Admissions"** report view.

9. FORM BUILDER INTERFACE SCREENSHOT

10. OUTPUT & DASHBOARD DEMONSTRATION

Below are the captured outputs of the UI Builder Dashboard, Course Report, and Consolidated All Student Admissions Report built inside Zoho Creator.

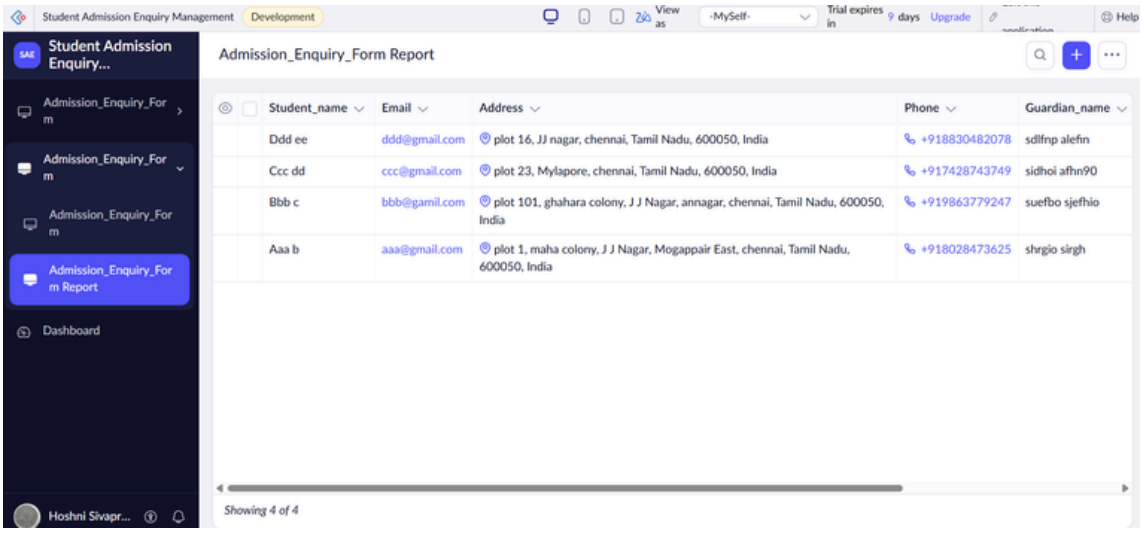

(Student Admission Count, Course Completion, DOB Bar Chart

11. RESULT SUMMARY

An **All Student Admissions** report, a grouped **Course Report**, and a consolidated **Dashboard Page** were successfully constructed in Zoho Creator. All thirteen Basic Fields were correctly utilized with proper validation rules, enabling admissions officers to track applicant metrics, analyze trends, and manage student enquiries efficiently.

12. GROUPED REPORTS & RECORD VIEWS

Outputs showing the course report (grouped by B.Tech AI & DS, CSE, M.Tech, MCA) and the All Student Admissions grid report view containing submitted student enquiry records.
